About this Dashboard

Business Objective

Transform operational HR data into an executive dashboard that supports workforce analysis and business decision-making through interactive visualizations and key workforce metrics.

Technical Approach

- Data validation and cleansing
- Relationship modeling between Employees, Performance and Salary
- DAX measures for KPIs
- Performance classification using SWITCH(TRUE())
- Interactive slicers for dynamic analysis

Business Value

This dashboard enables HR leaders to monitor workforce composition, compensation, performance and geographic distribution while providing interactive filtering capabilities to support data-driven decision making.
